

Value Added Reseller (VAR) Channel Program

Business Partner Program - Value Added Reseller (VAR) Channel Program

DigiLink wants you to join our team!

Develop a unique level of distinction, a greater visibility and a stronger relationship with your customers with DigiLink's VAR Channel Program. Our VAR program can compliment your firm's existing offerings – providing increased revenue opportunities for you and better value for your valued clients.

What kinds of organizations benefit from a Value Added Reseller partnership with DigiLink?

Technology Value-Added Resellers

You market hardware, software or services and having an additional solution to offer will keep you in front of your customers. By matching the best telecommunication solutions in the market, with your customer's requirements, you can remain one of their most valued resources.

And, with our wide variety of services and products and our technical expertise, you'll benefit from our ability to create unique solutions for any size business--not just the 'cookie-cutter technology' offered by many other providers today! This program will allow DigiLink VAR Partners to easily expand the technology solutions they offer to their customers by implementing fully supported telecommunication solutions in their customer accounts.

Whether you sell to small, medium, or large businesses, we are interested in talking to you. For more information or to submit a Value-Added (VAR) Reseller Interest Form, visit www.digilink.net/partners/var/. Be sure to review the Business Partner Program Frequently Asked Questions and Guidelines to Apply documents for more insight into the program and the application process.
