

Residential Synchronous Wireless

Synchronous Wireless is DigiLink's carrier grade, state-of-the-art asymmetrical wireless service. DigiLink's Synchronous Wireless service can provide your residence or home office with asymmetrical Internet bandwidth from 1.5 Mbps to 7.0 Mbps. Synchronous wireless is a GPS timed system that provides 100% CIR and QoS to support all applications and voice services.

DigiLink's synchronous wireless can help your SOHO gain a competitive advantage in a number of crucial ways:

- ✓ Standard lightning fast speeds of 1.5Mbps, 3Mbps, and 7Mbps asymmetrical bandwidth
- ✓ Specialized ultra high speed service of 30Mbps, 60Mbps, 150Mbps and 300Mbps
- ✓ Quality of service provides a constant bit rate with 100% CIR and QoS for voice services
- ✓ Carrier-grade toughness, high performance, and low latency(<10ms)
- ✓ Encrypted to ensure secure data delivery and exceptional reliability
- ✓ Support for high in-demand network services like VoIP, video services, audio and security surveillance
- ✓ Global Positioning System (GPS) synchronization allows high-tolerance to interference
- ✓ Advanced scalability allows your home based business to easily handle growth
- ✓ Entire installation handled by DigiLink - 9x5 business hours support by local, network engineers

We engineer high performance service directly from your network to the core of our fully switched network, via carrier class fiber optic connections. This results in a completely uncongested connection with one hop onto the internet, without the need to go through clouds or failure prone remote points of presence.

1.5 Mbps: Asymmetrical bandwidth (bandwidth is 100% CIR 1.5Mbps down / 768 Kbps up)*

1 year: \$35.00/Month Flat Rate
 Setup and Installation at MPOE - \$125.00
 Subscriber Module Antenna rental - \$5.00/month

1 POP/IMAP mailbox (50MB limit)
 Mail account is an @digilink.net account
 Mail box accessible via web interface
 1 dynamic IP address
 9x5 live, local, business hours support

3.0 Mbps: Asymmetrical bandwidth (bandwidth is 100% CIR 3.0Mbps down / 1.0 Mbps up)*

1 year: \$65.00/Month Flat Rate
 Setup and Installation at MPOE - \$125.00
 Subscriber Module Antenna rental - \$5.00/month

1 POP/IMAP mailbox (50MB limit)
 Mail account is an @digilink.net account
 Mail box accessible via web interface
 1 dynamic IP address
 9x5 live, local, business hours support

7.0 Mbps: Asymmetrical bandwidth (bandwidth is 100% CIR 7.0Mbps down / 2.0 Mbps up)*

1 year: \$125.00/Month Flat Rate
 Setup and Installation at MPOE - \$125.00
 Subscriber Module Antenna rental - \$5.00/month

1 POP/IMAP mailbox (50MB limit)
 Mail account is an @digilink.net account
 Mail box accessible via web interface
 1 dynamic IP address
 9x5 live, local, business hours support

* Coverage area is within 10 miles of our office building in Marina Del Rey and there must be line of sight (LoS) between the customer's premise and our office.
 * Setup costs do not include inside wiring from antenna location to customer's equipment.
 * Bandwidth may be limited based on distance and other factors that can only be determined at time of installation.

DigiLink Synchronous Wireless Service area: Los Angeles | Playa del Rey | Culver City | Marina del Rey | Venice | Century City | Westchester | Santa Monica
